March 14, 2014

Jamestown Electro-Plating, Inc.
Mr. John Johnson
P.O. Box 1137
Jamestown, NY 14702-1137

Dear Mr. Johnson,

We appreciate your interest in PPG products and are responding to your request to Tim Paddock dated March 6, 2014 for information on the PPG Products, CK163, DURACRON® RCGL, CHEMFOS® CF700AW, CHEMFOS® CF700RW, CHEMFOS® CF-LA, CHEMFOS® CF-AFL, CHEMFIL® BUF, MZD7330, CHEMSEAL® CS59, and CORROSOL® PT20851-03.

The EU Directive 2011/65/EU “Restriction on the Use of Certain Hazardous Substances” (RoHS 2) requires all Member States (per Article 4(1) of the Directive) to ensure that materials and components of electrical and electronic equipment put on the market after 1 July 2006 do not contain the following specific hazardous substances: lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBBs) or polybrominated diphenyl ethers (PBDEs).

We have reviewed these products with regard to the EU Directive 2011/65/EU and based on our current knowledge of these products and the information (such as safety data sheets [SDSs]) provided to PPG by its raw material suppliers, these PPG Products do not contain cadmium, hexavalent chromium, lead, mercury, polybrominated biphenyls (PBBs) or polybrominated diphenyl ethers (PBDEs) at levels greater than the tolerated maximum concentration values.

Do not hesitate to contact me if you have additional questions regarding PPG products.

Sincerely,

A handwritten signature in black ink that reads 'Karen Beckmann'.

Karen Beckmann
Manager, Industrial Coatings Product Stewardship
