CINCINNATI, Ohio - Jamestown Electro Plating / Armoloy of New York has been named one of the best finishing shops in the U.S., according to an industry benchmarking survey conducted by *Products Finishing* magazine, a trade publication which has covered the industry since 1938.

The magazine conducted an extensive benchmarking survey that analyzed a company in several different areas, including Current Finishing Technology, Finishing Practices and Performances, Business Strategies and Performances, and Training and Human Resources.

Only the top 50 shops were given the honor of being a *Products Finishing* magazine 'Top Shop' based on a scoring matrix of those four criteria.

Jamestown Electro Plating / Armoloy of New York has established itself as one of the best finishing operations in the industry," said Tim Pennington, editor of *Products Finishing* magazine. "The criteria we used was very stringent, and only the finishing shops that excelled in all four areas made the list. Jamestown Electro Plating / Armoloy of New York is in rare air when it comes to finishing operations."
